CERTIFIED PUBLIC ACCOUNTANT

Honorable Mayor and Members of the City Council City of Hearne, Texas

We have audited the accompanying financial statements of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Hearne, Texas, (the "City") as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise the city's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing a opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, the discretely presented component units, each major fund, and the aggregate remaining fund information of the City of Hearne, Texas, as of September 30, 2017, and the respective changes in financial position, where applicable, cash flows thereof, and the respective budgetary comparison for the general fund for the year then ended in accordance with accounting principles generally accepted in the United States of America.

MEMBER TEXAS SOCIETY OF CERTIFIED PUBLIC ACCOUNTANTS and AMERICAN INSTITUTE OF CERTIFIED PUBLIC ACCOUNTANTS 205 East University, Ste. 165, GEORGETOWN, TEXAS 78626 512-422-3700 FAX: 512-240-5460 WEBSITE www.donallmancpa.com

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis on pages 3-9 and the schedule of changes in net pension liability and related ratios-Texas Municipal Retirement system, schedule of contributions-Texas Municipal Retirement System, schedule of the city's proportionate share of the net pension liability-Texas Emergency Services Retirement System, and schedule of contributions-Texas Emergency Services Retirement system on pages 47 through 50, be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the City of Hearne, Texas' basic financial statements. The combining and individual non-major fund financial statements and budgetary comparison schedules are presented for purposes of additional analysis and are not a required part of the basic financial statements.

The combining and individual nonmajor fund financial statements and budgetary comparison schedules are the responsibility of management and were derived from and relate directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the combining and individual non-major fund financial statements and budgetary comparison schedules are fairly stated in all material respects in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued a report dated April 30, 2018, on our consideration of the City of Hearne, Texas' internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grants agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the City's internal control over financial reporting and compliance.

Georgetown, Texas April 30, 2018

MANAGEMENT'S DISCUSSION AND ANALYSIS

This section of City of Hearne Texas' annual financial report presents our discussion and analysis of the City's financial performance during the fiscal year ended September 30, 2017. Please read it in conjunction with the City's financial statements, which follow this section.

FINANCIAL HIGHLIGHTS

- The city's total combined Net Position was \$ \$9,309,283 at September 30, 2017. This represents a decrease of 8.2% in the Governmental Activities and an increase of 7.9% in Business Activities for an overall increase of 1.4%.
- During the year, the City's expenses were \$ 127,006 less than the \$11,218,250 generated in taxes, charges for service and other revenues for Governmental and Business-Type Activities. Comparatively, last year, the City's expenses were \$462,906 less than revenues of \$11,496,000.
- In the City's General Fund Activities, Revenues increased by 3.6% to \$2,784,000 due to increases in sales tax and property tax revenues.
- The Fund Balance in Governmental Funds increased this year an amount of \$80,783 to \$1,811,387.

Figure A-1, Required Components of the City of Hearne's Annual Financial Report

OVERVIEW OF THE FINANCIAL STATEMENTS

This annual report contains the three required components of an annual financial statement-management's discussion and analysis (this section), the basic financial statements, and required supplementary information. The basic financial statements include two kinds of statements that present different views of the City:

- * The first two statements are government-wide financial statements that provide both *long-term* and *short-term* information about the City's overall financial status
- The remaining statements are *fund financial statements* that focus on *individual parts* of the government, reporting the City's operations in more detail than the government-wide statements.
- * The governmental funds statements tell how general government services were financed in the short term as well as what remains for future spending.
- * Proprietary fund statements offer short and long-term financial information about the activities the government operates like businesses.
- * Fiduciary fund statements provide information about the financial relationships in which the City acts solely as a trustee or agent for the benefit of others, to whom the resources in question belong.

Management's Basic Required Discussion Financial Supplementary AndStatements Information Analysis Government-Fund Notes Wide Financial to the Financial Statements Financial Statements Statements

The financial statements also include notes that explain some of the information in the financial statements and provide more detailed data. The statements are followed by a section of *required supplementary information* that further explains and supports the information in the financial statements. Figure A-1 shows how the required parts of this annual report are arranged and related to one other.

Figure A-2 summarizes the major features of the City's financial statements, including the portion of the City government they cover and the types of information they contain. The remainder of this overview section of management's discussion and analysis explains the structure and contents of each of the statements.

Government-wide Statements

The government-wide statements report information about the City as a whole using accounting methods similar to those used by private-sector companies. The statement of net position includes all of the government's assets and liabilities. All of the current year's revenues and expenses are accounted for in the statement of activities regardless of when cash is received or paid. The two government-wide statements report the City's net position and how they have changed. Net position, (the difference between the City's assets and liabilities), is one way to measure the City's financial health or position.

- Over time, increases or decreases in the City's net position are an indicator of whether its financial health is improving or deteriorating respectively.
- To assess the overall health of the City, one needs to consider additional nonfinancial factors such as changes in the City's tax base.

The government-wide statements of the City include the <u>Governmental activities</u>. Most of the City's basic services are included here, such as general administration, public safety, streets and bridges, buildings and grounds, and financial and professional. Property, sales and franchise taxes finance most of these activities.

Fund Financial Statements

The fund financial statements provide more detailed information about the City's most significant funds – not the City as a whole. Funds are accounting devices that the City uses to keep track of specific sources of funding and spending for particular purposes.

Some funds are required by state law and by bond covenants.

The City Council establishes other funds to control and manage money for particular purposes or to show that it is properly using certain taxes and grants.

The City has the following types of funds:

Government funds — most of the City's basic services are included in governmental funds, which focus on (1) how cash and other financial assets that can readily be converted to cash flow in and out and (2) the balances left at year-end that are available for spending. Consequently, the governmental fund statements provide a detailed short-term view that helps you determine whether there are more or fewer financial resources that can be spent in the near future to finance the City's programs. Because this information does not encompass the additional long-term focus of the government-wide statements, we provide additional information at the bottom of the governmental funds statement, or on the subsequent page, that explain the relationship or differences between them.

Proprietary funds -- Services for which the City charges customers a fee are generally reported in proprietary funds. Proprietary funds, like the government-wide statements, provide both long-term and short-term financial information.

Total Revenues for the City of Hearne were \$11,219,000, a decrease of 2.2%. The total cost of all programs and services increased by \$88,000, or .01% to \$11,092,000, over last year's total of \$11,004,000. Overall, Net Position increased by \$127,006 to \$9,309,283.

Governmental Activities

Revenues for the City's Governmental Activities increased by 3.6%, or \$96,000. The cost of all Governmental Activities increased by \$187,000 to \$3,681,000, up from last year's total of \$3,494,000.

Business Activities

Revenues for the City's business activities decreased by 3.9% this year (\$8,435,000 compared to \$8,780,000 for last year). Expenses decreased by 1.3% this year (\$7,411,000 compared to \$7,510,000 last year).

The City's management has been taking proactive steps to help with budgetary shortfalls. This is the 6th year that they have collected \$0.003 per kilowatt on electric sales. \$2.00 per water meter, and a sanitation administrative fee equal to approximately 16.9% (the fee varies based upon the size of garbage cart of dumpster) to strengthen the net position. They have also been collecting \$0.47 per 1,000 gallons of water sold to defray the cost of the annual water storage tank maintenance and inspections.

THE CITY'S FUNDS

As the City completed the year, its governmental funds (as presented in the balance sheet) reported a Governmental Fund Balance of \$1,811,387 which increased from last year's total of \$1,730,604.

General Fund Budgetary Highlights

During the course of the year, the City revised its budget several times. These budget amendments fall into three categories. The first category includes amendments and supplemental appropriations which the 4A and the 4B Sales Tax Boards approved and agreed to pay for special projects. The second category involves unexpected revenue such as asset sales that management decided to use to cover a specific project, or insurance proceeds that was used to repair the damages covered by the insurance proceeds. The third type includes amendments at the end of the year to cover any unforeseeable budget overruns.

Actual revenues were less than the final budgeted amounts by \$41,681, with expenditures coming in \$18,614 less than expectations. This made the overall budget operations fall short of budget by \$23,067.

Long-Term Debt

At year end, the City had \$6,276,000 in Long Term Debt outstanding. This included \$4.175 million in bonds payable. This compares to \$4.48 million in bonds outstanding last year and is a 10.8% reduction in these debt instruments. (See Table A-4)

Standard & Poor's upgraded the City's bond rating of bbb- to A- on March 12, 2010 and again upgraded the rating again from A- to A on November 5, 2010. These actions were taken due to significant improvement in the City's financial condition. It is unusual for a bond rating to be raised twice in such a short time. The City is proud of this accomplishment. The bond rating of A was raised to A+ on 06/26/2014. There has been no change in the bond rating since this recent upgrade. The Bonds were reissued in March 2011 with a total savings of approximately \$355,000 and present value savings of approximately \$275,000.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGETS AND RATES

The City's elected and appointed officials considered many factors when setting the fiscal-year 2017-2018 budget, tax rates, and fees that will be charged for the business-type activities. One of those factors is the economy. The City of Hearne has experienced notable commercial growth for a city with a population of less than 5,000.

Economic factors influencing the 2017-2018 Budget include the opening of a Chicken Express restaurant, a Tractor Supply hardware store, Fema and the associated rental of City property projected to bring in an extra \$200,000 in income per year, the Magellan East Houston to Hearne Pipeline which is projected to be a \$30 million capital investment in 2018, the Valero Hearne to Hutto pipeline projected to be a \$20 million capital investment in 2019, and Union Pacific is building the 2nd biggest railyard in the United States in Hearne.

The Chicken Express restaurant will increase sales tax revenues for the City of Hearne from citizens and travelers passing thru and also provide jobs.

The Tractor Supply store will also increase sales tax revenues for the City of Hearne and also provide jobs.

The Fema and associated rental of City property is projected to increase revenues by \$200,000 per year.

The Magellan East Houston to Hearne pipeline is projected to be a \$30 million capital investment in 2018 and should bring jobs and increase revenues for the City of Hearne.

The Valero Hearne to Hutto pipeline is projected to be a \$20 million capital investment in 2019 and should bring jobs and increase revenues for the City of Hearne.

The Union Pacific Railyard being built should bring jobs and increase revenues for the City of Hearne.

The Texas Department of Public Safety entered into an agreement with the City of Hearne to build and lease a Commercial Driver License Testing Facility to the DPS in Hearne. This facility opened in March of 2015 and has had a steady and consistent flow of people seeking a Texas Commercial Driver License.

In 2013, the City of Hearne was awarded a \$750,000 TDRA "Capital Funds" Grant to upgrade the infrastructure, i.e., water lines, electric lines, sewer, city streets, and drainage to accommodate the new Nursing Home and Assisted Living Facility. The City also was awarded another Texas Capital Funds Grant in the amount of \$325,000 to assist in upgrading the infrastructure for the molding and trim warehouse. The work on both of these grants is expected to be completed by the end of the first quarter of 2016.

The City of Hearne has received multiple grants from TX-DOT-Aviation Division in order to improve the Hearne Municipal Airport. One of these grants was approximately \$165,000 to install a new Aviation Fuel Facility. The second grant was approximately \$575,000 to build a game-proof perimeter fence around the airport. The work on the first project was completed and placed in operation in May, 2013. The Airport has a steady flow of Av-Gas customers that fly in from a radius of 100 miles, just to buy fuel. The fence was completed early in the 2014-2015 Fiscal Year. Both improvements to the airport have been appreciated and complimented by pilots.

The City of Hearne added a new restaurant, a new hardware store, Fema rental income and 2 pipelines and a Railyard are coming.

These new businesses provide numerous economic benefits to the City of Hearne. Among these benefits are: 1. A broadened property tax base, an increase local sales tax, an increase in new jobs for the citizens, increased hotel & motel taxes from temporary workers, and a reason for people to move to Hearne and become citizens. 2. All of this comes full circle and leads to more businesses coming to Hearne. 3. Other businesses continue to show interest in relocating to Hearne. This same growth pattern is also reflected in small, locally owned businesses.

After taking all factors into consideration, the City adopted a \$10.8 million budget for Fiscal Year 2017-2018. Broken down, this is \$3.7 million for the General Fund and \$7.1 million for the Enterprise Fund. This compares to the final budget of \$3.3 million and \$7.9 million respectively for fiscal year 2015-2016. This new budget is a 12.12% increase for the General Fund and 10.12% decrease for the Enterprise Fund. This provides an overall decrease of 3.57%

CONTACTING THE CITY'S FINANCIAL MANAGEMENT

The financial report is designed to provide our citizens, taxpayers, customers, investors and creditors with a general overview of the City's finances and to demonstrate the City's accountability for the money it receives. If you have any questions about this report or need additional financial information, contact the City's Finance Department.

City of Hearne, Texas

Reconciliation of the Statement of Revenues, Expenditures, and Changes in Fund Balances of Governmental Funds to the Statement of Activities For the Year Ended September 30, 2017

Net change in fund balances - total governmental funds		\$ 80,783
because:		
Governmental funds report capital outlays as expenditures. However, in the S Activities, the cost of these assets is allocated over their estimated useful lives a as depreciation expense:		
Expenditures for capital assets	162,422	
Depreciation of capital assets	(420,423)	(258,001)
Revenues in the Statement of Activities that do not provide current financial renot reported as revenues in the funds and are instead deferred. This amount reported change in unavailable tax revenue.		34,649
Revenues in the Statement of Activities that do not provide current financial renot reported as revenues in the funds.	esources are	(4,900)
Restatement of prior period fund balance		_
The issuance of long-term debt provides current financial resources to government while the repayment of the principal of long-term debt consumes the curre resources of the governmental funds. This amount is the net effect of these did the treatment of long-term debt and related items.	nt financial	
Some expenses reported in the Statement of Activities do not require the use financial resources and, therefore, are not included as expenditures in government		
Compensated absences \$	(94,037)	
Capital lease payable	(64,916)	 (158,953)

\$ (306,422)

Change in net position of governmental activities

Note 1. Summary of Significant Accounting Policies

The financial statements of the City of Hearne, Texas (the City) have been prepared in conformity with generally accepted accounting principles (GAAP) as applied to government units. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles. The City's more significant accounting policies are described below.

A. Reporting Entity

The City is a home-rule city governed by an elected mayor and a five-member council. The City operates under a Council-Manager form of government, established by City charter. As required by generally accepted accounting principles, these financial statements present the City (the primary government) and its component units, entities for which the government is considered to be financially accountable. Each discretely presented component unit is reported in a separate column in the government-wide financial statements to emphasize that it is legally separate from the government.

Discretely Presented Component Units

The Hearne Economic Development Corporation is a non-profit corporation created under Section 4A of the Development Corporation Act of 1979. The Corporation receives one-half of one percent of local sales tax collected, which is used to promote economic development within the City. The Corporation is governed by a Board of Directors that is appointed by the City Council.

The Hearne Infrastructure/Improvement Corporation is a non-profit corporation created under Section 4B of the Development Corporation Act of 1979. The Corporation receives one-half of one percent of local sales tax collected, which is used to promote economic development within the City. The Corporation is governed by a Board of Directors that is appointed by the City Council.

B. Basis if Presentation

Government-wide financial statements

The Statement of Net Position and Statement of Activities display information about the reporting government as a whole. They include all funds of the reporting entity. The effect of interfund activity, other than interfund services provided and used within the governmental and business-type activities, has been removed from these statements. The statements distinguish between governmental and business-type activities. Governmental activities are generally financed through taxes intergovernmental revenues, and other non-exchange revenues. Business-type activities are financed in whole or in part by fees charged to external parties for goods or services.

The government-wide statement of activities demonstrates the degree to which the direct expenses of a functional category (General Government, Public Safety, etc.) are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function or segment. Program revenues include charges to customers or applicants who purchase, use, or

Directly benefit from goods, services, or privileges provided by a given function or segment; grants and contributions that are restricted to meeting the operational requirements of a particular function or segment; and grants and contributions that are restricted to meeting the capital requirements of a particular function or segment.

Fund financial statements

Fund financial statements of the reporting entity are organized into funds, each of which is considered to be separate accounting entities. Each fund is accounted for by providing a separate set of self-balancing accounts that constitute its assets, liabilities, fund equity, revenues, and expenditures/expenses. Funds are organized into two major categories; governmental and proprietary. An emphasis is placed on major funds within the governmental and proprietary categories. A fund is considered major if it is the primary operating fund of the City or meets the following criteria:

- a. Total assets, liabilities, revenues, or expenditures/expenses of that individual governmental or enterprise fund are at least 10 percent of the corresponding total for all funds of that category or type; and
- b. Total assets, liabilities, revenues, or expenditures/expenses of the individual governmental fund or enterprise fund are at least 5 percent of the corresponding total for all governmental and enterprise funds combined.

The funds of the financial reporting entity are described below:

Governmental Funds

General Fund

The General Fund is the primary operating fund of the city and is always classified as a major fund. It is used to account for all activities except those legally or administratively required to be accounted for in other funds.

Other Governmental Funds

Other Governmental Funds is a summation of all of the non-major governmental funds.

Proprietary Funds

Enterprise Fund

This fund is used to account for the operations of the City's utility systems, which include water, electric, sewer, and sanitation services.

Municipal Airport Enterprise Fund

This fund is a non-major enterprise fund, used to account for the operations of the City's municipal airport.

C. Measurement Focus and Basis of Accounting

Measurement focus is a term used to describe *which* transactions are recorded within the various financial statements. Basis of accounting refers to *when* transactions are recorded regardless of the measurement focus applied.

Measurement Focus

In the government-wide Statement of Net Position and the Statement of Activities, both governmental and business-like activities are presented using the economic resources measurement focus as defined in item b below.

In the fund financial statements, the *current financial resources* measurement focus or the *economic resources* measurement focus is used as appropriate:

- a. All governmental funds utilize a *current financial resources* measurement focus. Only current financial assets and liabilities are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period. These funds use fund balance as their measure of available spendable financial resources at the end of the period.
- b. The proprietary funds utilize an *economic resources* measurement focus. The accounting objectives of this measurement focus are the determination of operating income, changes in net position (or cost recovery), financial position, and cash flows. All assets and liabilities (whether current or noncurrent) associated with their activities are reported. Proprietary fund equity is classified as net position.

Basis of Accounting

In the government-wide Statement of Net Position and Statement of Activities, both governmental and business-like activities are presented using the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset used. Revenues, expenses, gains, losses, assets, and liabilities resulting from exchange and exchange-like transactions are recognized when the exchange takes place.

In the fund financial statements, governmental funds are presented on the modified accrual basis of accounting. Under this modified accrual basis of accounting, revenues are recognized when *measurable and available*. Measurement means knowing or being able to reasonably estimate the amount. Available means collectible within the current period or within sixty days after year end. Property, sales, and gross receipt tax revenues of governmental funds are recognized under the susceptible to accrual concept. Licenses and permits, charges for services, fines, contributions and miscellaneous revenues are recorded when received in cash, as these revenues are not measurable and available until cash is received. Investment income is recorded as earned since it is measurable and available. Expenditures (including capital outlay) are recorded when the related fund liability is incurred, except for general obligation bond principal and interest which are reported when due.

The proprietary funds utilize the accrual basis of accounting. Under the accrual basis of accounting, revenues are recognized when earned and expenses are recorded when the liability is incurred or economic asset is used. Operating revenues and expenses for proprietary funds include activities related to providing services and producing and delivering goods in connection with a proprietary fund's principal ongoing operations. Revenues and expenses that do not meet this definition are reported as non-operating revenues and expenses.

D. Budgets

Annual appropriated budgets are adopted for the general fund, special revenue funds, except Police Special fund, and proprietary funds. The budgets for all funds are prepared and adopted on a basis consistent with generally accepted accounting principles, which is the same basis of accounting used for financial reporting in these financial statements. Budgets are adopted by passage of a budget ordinance. All annual budget appropriations lapse at fiscal year-end.

Encumbrance accounting is a system under which purchase orders, contracts, and other commitments for the expenditure of funds are recorded to reserve that portion of the applicable appropriation. Encumbrances are reported as reservations of fund balances since they do not constitute expenditures or liabilities. The City does not employ encumbrance accounting as it feels its current system is adequate to assure effective budgetary control and accountability and to facilitate effective cash planning and control.

E. Cash and Investments

For the purpose of the Statement of Net Position and the Statement of Cash Flows, "Cash and cash equivalents" consists of cash on hand, amounts in demand deposit accounts and interest-bearing checking accounts, as well as certificates of deposits and investments with maturities of there months or less.

State statutes authorize the City to invest in time deposits of its designated depositories, U.S. Government Securities, and local government investment pools. Investments are carried at fair value. Interest income and changes in fair value are reported as investment income.

Cash equivalents include investments in the local government investment pool, TexSTAR. TexStar is privately managed, was organized in conformity with the Interlocal Cooperation Act and is managed in compliance with the Texas Public Funds Investment Act. The fair value of the investment pools approximates cost. The fair value of the City's position in the external investment pool is the same as the value of the pool shares.

F. Short-term Interfund Receivables/Payables

During the course of operations, numerous transactions occur between individual funds for goods provided or services rendered. These receivables and payables are classified as "due from other funds" and "due to other funds," respectively, on the fund financial statements. Residual balances outstanding between the governmental activities and business-type activities are reported in the government-wide financial statements as "internal balances".

G. Inventories

Inventories of enterprise funds are valued at cost using the first-in/first-out (FIFO) method. Inventories of governmental funds are recorded as expenditures when purchased.

H. Restricted Assets

Amounts in governmental funds which are legally identified for specific purposes either by City ordinance or contractual obligation are reflected as restricted assets. When both restricted and unrestricted resources are available for use, it is the government's policy to use the restricted resources first, then unrestricted resources as they are needed.

Amounts in proprietary funds restricted for Community Development Block Grant Program are also included as restricted assets.

I. Capital Assets

Capital assets, which include property, plant, equipment, and infrastructure assets, are reported in the applicable governmental or business-type activities columns in the government-wide financial statements and in the fund financial statements for proprietary funds.

The City defines capital assets as assets with an estimated useful life greater than one year and an initial individual cost of \$5,000 or more for land, machinery or equipment, buildings or improvements other than buildings. All capital assets are valued at historical cost of estimated historical cost if the actual historical cost is unavailable, except for donated capital assets which are recorded at their estimated fair value at the date of donation. Interest incurred during construction is not capitalized. The costs of normal maintenance and repairs that do not add to the value of the asset or materially extend asset lives are not capitalized. Improvements are capitalized and depreciated over the remaining useful lives of the related capital assets, as applicable.

Infrastructure assets (such as roads, bridges, curbs, and gutters, streets and sidewalks, and drainage systems) purchased before October 1, 2003 have not been capitalized and are excluded from capital assets of governmental activities.

Depreciation of all exhaustible capital assets is recorded as an allocated expense in the Statement of Activities, with accumulated depreciation reflected in the Statement of Net Position. Depreciation is provided over the assets' estimated useful lives using the straight-line method of depreciation over the following estimated useful lives:

Buildings	10-50 years
Infrastructure	10-40 years
Improvements other than buildings	10-50 years
Machinery and equipment	5-15 years

In the fund financial statements, capital assets used in governmental operations are accounted for capital outlay expenditures of the governmental fund at the time of acquisition. Capital assets used in proprietary fund operations are accounted for the same as in the government-wide statements

J. Compensated Absences

Compensated absences are those absences for which employees will be paid, such as vacation and sick leave. A liability for compensated absences that are attributable to services already rendered and that are not contingent on a specific event that is outside the control of the City and its employees is accrued as employees earn the rights to the benefits. Compensated absences that relate to future services or that are contingent on a specific event that is outside the control of the City and its employees are accounted for in the period in which such services are rendered or in which such events take place.

In the governmental fund financial statements, compensated absences that are expected to be liquidated with expendable available financial resources are reported as an expenditure and fund liability in the fund that will pay for the compensated absences. Therefore, a liability for these amounts is recognized only if they have matured, for example, as a result of employee resignations and retirements. In the government-wide and proprietary fund financial statements compensated absences are accrued as incurred.

K. Long-term Obligations

The accounting treatment for long-term debt depends on whether the assets are used in governmental fund operations or proprietary fund operations and whether they are reported in the government-wide or fund financial statements.

Long-term debt is recognized as a liability of a governmental fund when due. For other long-term obligations, only that portion expected to be financed from expendable available financial resources is reported as a fund liability of a governmental fund. The remaining portion of such obligations is reported in the governmental activities column of the government-wide Statement of Net Position. Long-term liabilities expected to be financed from proprietary fund operations are accounted for in those funds.

L. Fund Equity

Government-wide statements

Equity is classified as net position and displayed in three components:

- a. Net investment in capital assets consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes or other borrowings that are attributable to the acquisition, construction, or improvement of those assets.
- b. Restricted net position consists of net position with constraints placed on the use either by (1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments; or 92) law through constitutional provisions or enabling legislation.
- c. Unrestricted net position all other net position that do not meet the definition of "restricted" or "invested in capital assets, net of related debt."

Fund statements

Proprietary fund equity is classified the same as in the government-wide statements. Governmental fund equity is classified as fund balance. Fund balance is further classified as Nonspendable; restricted, committed, assigned, and/or unassigned.

Classification of fund balances

The *Nonspendable* fund balance includes the portion of net resources that cannot be spend because of their form or because they must be maintained intact. Resources not in spendable form include supplies inventories and prepaid items, long-term advances to other funds net of deferred interest revenue, long-term receivable net of deferred interest revenue, nonfinancial assets held for resale, and unrealized change in the fair value of investments.

Some resources are spendable but are legally or contractually required to be maintained intact. Such resources include the principal of an endowment.

The *restricted* fund balance includes net resources that can be spent only for the specific purposes stipulated by constitution, external resource providers (creditors, grantors, contributors), laws and regulations of other governments, or through enabling legislation. The enabling legislation authorizes the City to assess, levy, charge or otherwise mandate payment of resources from external resource providers; those resources can be used only for the specific purposes stipulated in the legislation. The City's revenue generated through enabling legislation includes municipal court fees.

The *committed* fund balance includes spendable net resources that can only be used for specific purposes pursuant to constraints imposed by formal Council actions, no later than the close of the fiscal year. Those constraints remain binding unless removed or changed in the same manner employed to previously commit those resources.

The assigned fund balance includes amounts that are constrained by the City's intent to be used for specific purposes, but are neither restricted nor committed. Such intent should be expressed by the City Council or its designated officials to assign amounts to be used for specific purposes, but are neither restricted nor committed. Constraints imposed on the use of assigned amounts can be removed with no formal Council actions. The assigned fund balance is only reported in the General fund.

The *unassigned* fund balance represents spendable net resources that have not been restricted, committed, or assigned to specific purposes.

Spending prioritization in Using Available Resources

When both restricted resources and other resources (i.e., committed, assigned, and unassigned) can be used for the same purpose, the City budget considers restricted resources to be spend first.

When committed, assigned, and unassigned resources can be used for the same purpose, the flow assumption in the City budget is to spend in the sequence of committed resources first, assigned second, and unassigned last.

M. Interfund Transfers

Interfund services provided and used are accounted for as revenues, expenditures, or expenses. Transactions that constitute reimbursements to a fund for expenditures/expenses initially made from it that are properly applicable to another fund are recorded as expenditures/expenses in the reimbursing fund and as reductions in expenditures/expenses in the fund that is reimbursed.

All other interfund transactions, except interfund services provided and used and reimbursements, are reported as transfers.

N. Pensions

For purposes of measuring the net pension liability, deferred outflows or resources and deferred inflows of resources related to pensions, and pension expense, information about the Fiduciary Net Position of the Texas Municipal Retirement System (TMRS) and the Texas Emergency Services Retirement System (TESRS) and additions to / deductions from TMRS's and TESRS's Fiduciary Net Position have been determined on the same basis as they are reported by TMRS and TESRS. For this purpose, plan contributions are recognized in the period that compensation is reported for the employee, which is when contributions are legally due. Benefit payments and refunds are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

O. Post-employment Benefits

The City participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement System (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The City elected, by ordinance, to provide group-term life insurance coverage to both current and retired employees. The City may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 or any year to be effective the following January 1.

Note 2. Legal Compliance – Budgets

In June of each year, all departments of the City submit requests for appropriations to the City Manager so that a budget may be prepared. The City Manager has ultimate responsibility for the budget and formulates the budget goals for the City under the direction of the City Council. The budget is prepared by fund, function, activity, and object, and includes information on the past year, current year estimates, and requested appropriations for the next fiscal year.

In compliance with the state's uniform budget law, the City Manager files the proposed budget with the City Secretary and City Council before the 30th day prior to the date the City adopts its tax levy for the fiscal year. Once filed, the proposed budget is available for inspection by the public. The City is required to hold a public hearing on the proposed budget not less than 15 days after the budget is filed with the City Secretary and prior to the date the Council makes the tax levy. The City publishes notice of the public hearing in the official newspaper not more than 30 days nor less than 10 days before the hearing. Once the hearing is concluded and before adopting the proposed budget, the Council may make any changes it considers warranted by law or in the best interest of the taxpayers. The annual operating budget is then adopted through passage of an annual budget ordinance. Upon approval by the Council, the annual budget document becomes a matter of public record which is available for use and inspection by all interested persons and organizations. It is filed with the City Secretary.

The legal level of budgetary control is the department. Therefore, expenditures may not legally exceed budget appropriations at the department level. Each department head, with the approval of the City Manager, can reclassify items within the department without approval of the Council. However, to amend the total of a department a budget amendment enacted by City ordinance is required.

Note 3. Deposits and Investments

The City maintains a cash pool that is available for use by the general, special revenue, and enterprise funds. At year end, several of the funds had overdrawn their share of the funds in the pool. The amounts overdrawn are presented on the combined balance sheet as payables to other funds. The city conducts all its banking transactions with its depository bank, SouthStar Bank.

As of September 30, 2017, the City had investments in TexStar with maturities less than 60 days with a fair value of \$628,504.

Interest rate risk

The investment policies of the City limit interest rate risk exposure by limiting investments primarily to certificates of deposits and local government investments pools.

Custodial credit risk

Custodial credit risk is the risk that, in the event of the failure of a depository financial institution, the government's deposits may not be returned to it. The City has a depository policy for custodial risk incorporated into its depository contract. Deposits of the City are insured or collateralized with securities held by the City, its agent, or by the pledging financial institution's trust department or agent in the name of the City.

Credit risk

It is the government's policy to limit its investments to local government investment pools, TesSTAR, or certificates of deposit. As of September 30, 2017, the City had investments in local government investment pools and certificates of deposit. TexSTAR was rated AAAm by Standard & Poor's as of September 30, 2017.

Note 4. Restricted Assets

At September 30, 2017, restrictions on cash and investments were as follows:

	Governmental Funds		Proprietary Funds		De	Hearne Economic evelopment orporation	Infr Imp	Hearne astructure/ provement orporation
Cash and Investments	_							
Restricted for:								
Hotel/motel expenditures	\$	183,802	\$	-	\$	-	\$	-
Police Special		11,505		-		-		-
Interest and sinking		48,000	886	6,843		_		_
Child Safety		41,994		-		-		-
Court security		96,270		-		-		_
Court technology		28,936		-		_		_
Community Development								
Block Grant Program		_		_		_		-
Meter Sinking		_		_		_		_
Economic Development		_		_		1,030,230		967,317
•	\$	410,507	\$ 88	6,843	\$	1,030,230	\$	967,317

Note 5. Receivables

Receivables at September 30, 2017, consist of the following:

	Governmental Funds		Prop	rietary Funds
Receivables:				
Taxes				
Property	\$	280,815	\$	-
Sales		71,668		
Hotel/motel occupancy		13,126		
Accounts		25,458		2,242,047
Grants		-		70,487
Less:				
Allowance for uncollectibles		(13,126)		(749,948)
Net total receivables	\$	377,941	\$	1,562,586

Property taxes attach as an enforceable lien on property as of February 1. Taxes are levied on October 1 and are payable by January 31. After which time they become delinquent, and penalties and interest may be assessed by the City.

Property taxes are collected and remitted to the city by the Robertson County Tax Assessor-Collector. The Robertson County Appraisal District appraises property values for the City. Property taxes are levied by October 1, in conformity with Subtitle E, Texas Property Code. Current taxes become delinquent on February 1 following the tax year. On January 1 of each year a tax lien attaches to property to secure the payment of all taxes, penalties and interest ultimately imposed. For the 2017 tax roll, the assessed valuation was \$209,173,622 and the net taxable value was \$197,248,091. The tax rate was \$0.71039 per \$100 valuation. This resulted in a total tax levy of \$1,383,265. Delinquent property taxes receivable at September 30, 2017 were \$223,994 and current property taxes receivable were \$56,821.

Note 6. Capital Assets

The following is a summary of capital asset activity during the year ended September 30, 2017:

	Beginning Balance	Additions/ Completions	Retirements/ Adjustments	Ending Balance
Governmental activities				
Capital assets not being depreciated	-			
Land	\$ 393,082	\$ -	\$ -	\$ 393,082

* * *				

Depreciation expense was charged as direct expense to programs of the primary government as follows:

General government	\$ 89,131
Public safety	159,306
Highways and streets	117,402
Culture and recreation	54,584
Total depreciation expense - Governmental activities	\$ 420,423

Note 7. Risk Management

The City is exposed to various risks of loss related to torts; theft of, damage to and destruction of assets; errors and omissions; injuries to employees; and natural disasters. The City participates in the Texas Municipal League Intergovernmental Risk Pool for its insurance and pays a quarterly premium to the Pool. The Pool is intended to be self-sustaining through member premiums and reinsures through commercial companies for excessive claims. Settled claims resulting from these risks have not exceeded commercial insurance coverage in any of the past three fiscal years.

Note 8. Long-term Debt

The following is a summary of long-term debt transactions of the City for the year ended September 30, 2017:

	Balance 9/30/2016	Additions	Retirements	Balance 9/30/2017	Due Within One Year	Long Term	
Governmental activities							
Lease payable - Oshkosh	\$ 412,316	\$ -	\$ (64,916)	\$ 347,400	\$ 42,141	\$ 305,259	
Subtotal of leases payable	412,316	-	(64,916)	347,400	42,141	305,259	
SouthStar Bank - Equipment							
Subtotal of notes payable	-			-	-		
	\$ 412,316	\$ -	\$ (64,916)	\$ 347,400	\$ 42,141	\$ 305,259	
Business-type activities							
Lease payable - Southside	\$1,079,920	\$ -	\$ (205,318)	\$ 874,602	\$ 336,222	\$ 538,380	
Lease payable - AEP	303,907	-	(101,751)	202,156	102,156	100,000	
Subtotal of leases payable	1,383,827	-	(307,069)	1,076,758	438,378	638,380	
2011 General obligation refundin	4,480,000	-	(305,000)	4,175,000	310,000	3,865,000	
Subtotal of bonds payable	4,480,000	-	(305,000)	4,175,000	310,000	3,865,000	
SouthStar Bank - Equipment	_			-			
Subtotal of notes payable	-						
	\$ 5,863,827	\$ -	\$ (612,069)	\$ 5,251,758	\$ 748,378	\$4,503,380	
•		0.00000000				_	

The annual aggregate maturities for each debt type for the years subsequent to September 30, 2017 are as follows:

	Business-type Activities					al Activities
Year ending	Bonds F	ayable	Notes	Payable	Notes I	Payable
September 30	Principal	Interest	Principal	Interest	Principal	Interest
2018	310,000	138,465	_			
2019	325,000	130,598	_	-	_	_
2020	335,000	121,599	-	-	_	-
2021	376,000	86,572	-	-	- .	-
2022	385,000	75,310				
2023-2025	1,119,000	346,286	-	-	-	-
2026-2030	1,325,000	79,815	ч	-	_	-
	4,175,000	978,645				

On March 1, 2011, the City issued \$5,905,000 of general obligation refunding bonds to provide resources to refund its Combination Tax and Waterworks and Sewer System Surplus Revenue Certificates of obligation, Series, 2004, in advance of their maturities. As a result, the refunded bonds are considered defeased and the liability has been removed from the business-type activities columns of the Statement of Net Position.

During the year ended September 30, 2017, the following changes occurred in other long-term liabilities:

	 alance 0/2016	 dditions ductions)	30/2017	 Within Year
Governmental activities Compensated absences	 127,067	\$ (94,037)	\$ 33,030	\$
Business-type activities Compensated absences	 73,899	\$ (54,690)	\$ 19,209	\$

The general fund has typically been used to liquidate the liability for compensated absences for governmental activities, while the enterprise fund has been used to liquidate the liability for business-type activities.

Note 9. Leases

The City has entered into several lease agreements to finance the acquisition of vehicles and equipment and a lease agreement to finance the acquisition of an electric substation. These lease commitments qualify as capital leases for accounting purposes, and therefore have been recorded at the present value of their future minimum lease payments as of inception date.

The assets acquired through the capital leases are as follows:

Asset Class	Governmental Activities	Business-type Activities
Vehicles	\$ 507,985	\$ -
Distribution and collection system	<u> </u>	2,453,435
Cost basis	507,985	2,453,435
Less: Accumulated depreciation	(101,596)	(895,914)
Total net asset	\$ 406,389	\$ 1,557,521

The total future minimum lease payments and the net present value of these minimum payments as of September 30, 2017 were as follows:

Year ending	Governmental	Business-type
September 30	Activities	Activities
2018	48,000	438,378
2019	48,000	173,545
2020	48,000	173,545
2021	48,000	126,788
2022	48,000	126,788
2023-2026	168,000	380,364
2026-2030	-	
Total minimum lease payments	408,000	1,419,408
Less: Amount representing interest	(98,086)	(485,564)
Present value of minimum payments	\$ 309,914	\$ 933,844

Amortization expense is included in depreciation expense of the Enterprise fund.

Note 10. Interfund Receivables and Payables

Interfund receivables and payables, all of which are considered short-term, at September 30, 2016, were as follows:

	Du	Due from		to
Name of Fund	other funds othe		other	funds
Governmental:				
Ceneral	\$	934,048	\$	_
Non-Major Governmental		_		_
Business-Type:				
Enterprise Fund		_		934,048
Non-Major Business-Type		-		,
	\$	934,048	\$	934,048

The interfund balances primarily result from the overdraft positions in the City's pooled cash account. Generally, amounts are cleared within the following year.

Note 11. Interfund Transfers

Interfund transfers during the year ended September 30, 2017, were as follows:

		Transfers in				
	(Seneral				
		Fund	En	terprise		Total
Transfers out						
General	\$	-	\$	41,879	\$	41,879
Enterprise		589,605		_		589,605
	\$	589,605	\$	41,879	\$	631,484

Transfers are made between the governmental funds and the enterprise funds in lieu of franchise fees, overhead allocations, and for debt service payments.

Note 12. Commitments

The City entered into an amended contract with AEP Energy Partners, Inc., to provide wholesale electricity. The contract will expire December 31, 2022. After the expiration, the contract is renewable upon mutual agreement. The City paid \$3,901,665 to this company during the year ended September 30, 2017.

The City entered into a contract with a company to collect commercial and residential garbage within the City. The contract will expire on December 1, 2016. The City paid \$539,205 to this company during the year ended September 30, 2017.

Note 13. Pension Plans

Texas Municipal Retirement System

A. Plan Description

The City participates as one of 860 plans in the nontraditional, joint contributory, hybrid defined benefit pension plan administered by the Texas Municipal Retirement System (TMRS). TMRS is an agency created by the State of Texas and administered in accordance with the TMRS Act, Subtitle G, Title 8, Texas Government Code (the TMRS Act) as an agent multiple-employer retirement system for municipal employees in the State of Texas. The TMRS Act places the general administration and management of the System with a six-member board of Trustees. Although the Governor, with the advice and consent of the Senate, appoints the Board, TMRS is not fiscally dependent on the State of Texas. TMRS's defined benefit pension plan is a tax-qualified plan under Section 401(a) of the Internal Revenue Code. TMRS issues a publicly available comprehensive annual financial report (CAFR) that can be obtained at www.tmrs.com.

All eligible employees of the city are required to participate in TMRS.

B. Benefits Provided

TMRS provides retirement, disability, and death benefits. Benefit provisions are adopted by the governing body of the city, within the options available in the state statutes governing TMRS.

At retirement the benefit is calculated as if the sum of the employee's contributions, with interest, and the city-financed monetary credits with interest were used to purchase an annuity. Members may choose to receive their retirement in one of seven payment options. Members may also choose to receive a portion of their benefit as a Partial Lump Sum Distribution in an amount equal to 12, 24, or 36 monthly payments, which cannot exceed 75% of the member's deposits and interest.

Plan provisions for the City were as follows:

	Plan Year 2016	Plan Year 2015	Plan Year 2014
Employee deposit rate	7%	7%	7%
Matching ratio (city to employee)	2 to 1	2 to 1	2 to 1
Years required for vesting	5	5	5
Service retirement eligibility (expressed as age/years of service)	60/5, 0/20	60/5,0/20	60/5,0/20
Updated Service Credit annuity Increase (to retirees)	100% repeating, transfers 70% of CPI repeating	100% repeating, transfers 70% of CPI repeating	100% repeating, transfers 70% of CPI repeating

Employees covered by benefit terms.

At the December 31, 2016 valuation and measurement date, the following employees were covered by the benefit terms.

Inactive employees or beneficiaries currently receiving benefits	25
Inactive employees entitled to but not yet receiving benefits	36
Active employees	54

C. Contributions

The contribution rates for employees in the TMRS are either 4.75%, 5.75%, or 6.75% of employee gross earnings, and the city matching percentages are either 100%, 150%, or 200%, both as adopted by the governing body of the city. Under the state law governing TMRS, the contribution rate for each city is determined annually by the actuary, using the Entry Age Normal (EAN) actuarial cost method. The actuarially determined rate is the additional amount necessary to finance the cost of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability.

Employees for the City were required to contribute 6.75% of their annual gross earnings during the fiscal year. The contribution rates for the City were 14.19% and 15.37% in calendar years 2017 and 2016, respectively. The city's contributions to TMRS for the year ended September 30, 2017, were \$300,091, and were equal to the required contributions.

D. Net Pension Liability

The City's Net Pension Liability (NPL) was measured as of December 31, 2016, and the Total Pension Liability (TPL) used to calculate the Net Position Liability was determined by an actuarial valuation as of that date.

Actuarial assumptions:

The Total Pension Liability in the December 31, 2016 actuarial valuation was determined using the following actuarial assumptions:

Inflation	2.5% per year
Overall payroll growth	3.0% per year
Investment Rate of	6.75%, net of pension plan investment expense, including
Return	inflation

Salary increases were based on a service-related table. Mortality rates for active members, retirees, and beneficiaries were based on the gender-distinct RP2000 Combined Healthy Mortality Table, with male rates multiplied by 109% and female rates multiplied by 103%. Based on the size of the City, rates are multiplied by a factor of 100.0%. The rates are projected on a fully generational basis by scale BB to account for future mortality improvements. For disabled annuitants, the gender-distinct RP2000 Disabled Retiree Mortality Table is used, with slight adjustments.

Actuarial assumptions used in the December 31, 2016, valuation were based on the results of actuarial experience studies. The experience study in TMRS was for the period January 1, 2010 through December 31, 2014, first used in the December 31, 2015 valuation. Healthy post-retirement mortality rates and annuity purchase rates were updated based on a Mortality Experience Investigation Study covering 2009 through 2011, and dated December 31, 2013. These assumptions were first used in the December 31, 2013 valuation, along with a change to the Entry Age Normal (EAN) actuarial cost method. Assumptions are reviewed annually. No additional changes were made for the 2016 valuation.

The long-term expected rate of return on pension plan investments is 6.75%. The pension plan's policy in regard to the allocation of invested assets is established and may be amended by the TMRS Board of Trustees. Plan assets are managed on a total return basis with an emphasis on both capital appreciation as well as the production of income, in order to satisfy the short-term and long-term funding needs of TMRS.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class are summarized in the following table:

		Long-Term Expected Real Rate
Asset Class	Target Allocation	of Return (Arithmetic)
Domestic Equity	17.5%	4.80%
International Equity	17.5%	6.05%
Core-Fixed Income	30.0%	1.50%
Non-Core Fixed Income	10.0%	3.50%
Real Return	5.0%	1.75%
Real Estate	10.0%	5.25%
Absolute Return	5.0%	4.25%
Private Equity	5.0%	8.50%
Total	100.0%	

Discount Rate

The discount rate used to measure the total pension liability was 6.75%. The projection of cash flows used to determine the discount rate assumed that employee and employer contributions will be made at the rates specified in statute. Based on that assumption, the pension plan's Fiduciary Net Position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all period of projected benefit payments to determine the Total Pension Liability.

	Increase (Decrease)

Pension Plan Fiduciary Net Position

Detailed information about the pension plan's Fiduciary Net Position is available in a separately-issued TMRS financial report. That report may be obtained on the Internet at www.tmrs.com.

E. Pension Expense and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions.

For the year ended September 30, 2017, the City recognized pension expense of \$380,159.

At September 30, 2017, the city reported deferred outflows of resources and deferred inflows or resources related to pensions from the following sources:

	Deferred		Deferred		
	Outflows of Resources		Inflows or Resources		
Differences between expected and actual					
economic experience	\$	11,043	\$	29,570	
Difference between projected and actual					
investment earnings		37,652		290,958	
Contributions subsequent to the measurement					
date		40,748		59,740	
	\$	89,443	\$	380,268	

\$ 235,003 reported as deferred outflows or resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2016. Other amounts reported as deferred outflows and inflows of resources related to pensions will be recognized in pension expense as follows:

Year ended September 30	
2017	31,308
2018	45,025
2019	24,489
2020	(3,025)
2021	
Thereafter	
Total	\$ 97,797

Texas Emergency Services Retirement System

A. Plan Description

The City participates in a cost-sharing multiple employer pension plan that has a special funding situation. The plan is administered by the Texas Emergency Services Retirement System (TESRS) established and administered by the State of Texas to provide pension benefits for emergency services personnel who serve without significant monetary remuneration. At August 31, 2015, there were 198 contributing fire and/or

Texas Emergency Services Retirement System

A. Plan Description (continued)

emergency services department members participating in TESRS. Eligible participants include volunteer emergency services personnel who are members in good standing of a member department.

On August 31, 2017, the pension system membership consisted of:

Retirees and beneficiaries currently receiving benefits	3,073
Terminated members entitled to benefits but not yet receiving them	2,161
Active participants (vested and non-vested)	4,036

B. Pension Plan Fiduciary Net Position

Detailed information about the TESRS's fiduciary net position is available in a separately-issued Comprehensive Annual Financial Report that includes financial statements and required supplementary information. TESRS issues a publicly available Annual Financial Report, which includes financial statements, notes, and required supplementary information, which can be obtained at www.tesrs.org. The separately issued actuarial valuations which may be of interest are also available at the same link.

C. Benefits Provided

Senate Bill, 65th Legislature, Regular Session (1977), created TESRS and established the applicable benefit provisions. The 79th Legislature, Regular Session (2005), re-codified the provisions and gave the TESRS Board of Trustees authority to establish vesting requirements, contribution levels, benefit formulas and eligibility requirements by Board rule. The benefit provisions include retirement benefits as well as death and disability benefits. Members are 50% vested after the tenth year of service, with the vesting percent increasing 10% for year of the next five years of service so that a member becomes 100% vested with 15 years of service. Upon reaching age 55, each vested member may retire and receive a monthly pension equal to his vested percent multiplied by six times the governing body's average monthly contribution over the member's years of qualified services. For years of service in excess of 15 years, this monthly benefit is increased at the rate of 6.2% compounded annually. There is no provision for automatic postretirement benefit increases.

On and off-duty death benefits and on-duty disability benefits are dependent on whether or not the member was engaged in the performance of duties at the time of death or disability. Death benefits include a lump sum amount or continuing monthly payments to a member's surviving spouse and dependent children.

D. Funding Policy

Contributions are made by governing bodies for the participating departments. No contributions are required from the individuals who are members of the System, nor are they allowed. The governing bodies of each participating department are required to make contributions for each month a member performs emergency services for a department (this minimum contribution is \$36 per member and the department may make a higher monthly contribution for its members). This is referred to as a Part One contribution, which is the legacy portion of the System contribution that directly impacts future retiree annuities. The State is required to contribute an amount necessary to make the System "actuarially sound" each year, which may not exceed one-third of the total of all contributions made by participating governing bodies in a particular year.

D. Funding Policy (continued)

The Board rule defining contributions was amended effective July 27, 2014 to add the potential for actuarially determined Part Two contributions that would be required only if the expected future annual contributions from the State are not enough with the Part One contributions to provide an adequate contribution arrangement as determined by the most recent actuarial valuation. This Part Two portion. which is actuarially determined as a percent of the Part One portion (not to exceed 15%), is to be actuarially adjusted near the end of each even-numbered calendar year based on the most recent actuarial valuation. Based on the actuarial valuation as of August 31, 2014, the Part Two contribution rate was 0%, since the first actuarial valuation report after adoption of the rules showed the System to have an adequate contribution arrangement without any Part Two contributions. Additional contributions may be made by governing bodies within two years of joining the System, to rant up to ten years of credit for service per member. Prior service purchased must have occurred before the department began participation in the System. A small subset of participating departments has a different contribution arrangement which is being phased out over time. In this arrangement, contributions made in addition to the monthly contributions for active members, are made by local governing bodies on a pay-as-you-go basis for members who were pensioners when their respective departments merged into the System. There is no actuarial impact associated with this arrangement as the pay-as-you-go contributions made by these governing bodies are always equal to benefit payments paid by the System.

E. Contributions

The contribution requirement per active emergency services personnel member per month is not actuarially determined. Rather, the minimum contribution provisions were set by board rule, and there is no maximum contribution rate. For the fiscal year ending August 31, 2017, total contributions (due, prior service, and interest on prior financing) of \$15,012 were paid by the City. The State appropriated \$1,530,343 for the fiscal year ending August 31, 20147to the plan as a whole.

F. Actuarial Assumptions

Total pension liability in the August 31, 2017 actuarial valuation was determined using the following actuarial assumptions, applied to all periods included in the measurement.

Actuarial valuation date 8/31/2017 Actuarial cost method Entry age

Amortization method Level dollar, Open

Amortization period 30 years

Asset valuation method Market value smoothed by a 5-year deferred recognition

method with a 80%/120% corridor on market value.

Actuarial assumptions:

Investment rate of 7.75%

return*

Projected salary increase
*includes inflation at 3.5%
Cost of living None

adjustments

F. Actuarial Assumptions (continued)

Mortality rates were based on the RP-2000 Combined Healthy Lives Mortality Tables for males and for females projected to 2018 by scale AA. The long-term expected rate of return on pension plan investments was determined using a building-block method in which expected future net real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These components are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation (3.5%). In addition, the final 7.75% assumption reflected a reduction of 0.20% for adverse deviation. The target allocation and expected arithmetic real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation	Long-Term Expected Net Real Rate of Return
Equities		<u> </u>
Large Cap Domestic	32.00%	5.20%
Small Cap Domestic	10.00%	5.80%
Developed International	21.00%	5.50%
Emerging Markets	6.00%	5.40%
Master Limited Partnership	5.00%	7.10%
Fixed Income		
Domestic	21.00%	1.40%
International	5.00%	1.60%

G. Discount Rate

The discount rate used to measure the total pension liability was 7.75%. No projection of cash flows was used to determine the discount rate because the August 31, 2017 actuarial valuation showed that expected contributions would pay the normal cost and amortize the unfunded actuarial accrued liability (UAAL) in 30 years using the conservative level dollar amortization method. That UAAL was based on an actuarial value of assets that was \$7.9 million less than the plan fiduciary net position as of August 31, 2014. Because of the 30-year amortization period with the conservative amortization method and with a lower value of assets, the pension plan's fiduciary net position is expected to be available to make all projected future benefit payments of current active and inactive members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

H. Sensitivity of the Net Pension Liability to changes in the discount rate

The following presents the net pension liability of the City, calculated using the discount rate of 7.75%, as well as the city's net pension liability would be if it were calculated using a discount rate that is 1 percentage point lower (6.75%) or 1 percentage point higher (8.75%) than the current rate:

H. Sensitivity of the Net Pension Liability to changes in the discount rate (continued)

	Disc	Decrease in count Rate 6.75%)		count Rate (7.75%)	1% Increase in Discount Rate (8.75%)	
City's proportionate share of the net pension liability:	\$	168,354	\$	102,727	\$	38.646
wer pension medici.	Ψ	100,55	Ψ	102,727	Ψ	20,040

I. Pension Liabilities, Pension Expense, and Deferred Outflows of Resources and Deferred Inflows of Resources Related to Pensions

At August 31, 2017, the City reported a liability of \$102,727 for its proportionate share of the plan's net pension liability. This liability reflects a reduction for State pension support provided to the City. The amount recognized by the City as a proportionate share of the net pension liability, the related State support, and the total portion of the net pension liability that was associated with the City were as followed:

City's proportionate share of the collective net pension liability	\$ 102,727
State's proportionate share that is associated with the City*	34,590
Total	\$ 137.317

^{*}Calculated using the City's proportionate share of contributions multiplied by the State's share of the collective net pension liability.

The net pension liability was measured as of August 31, 2017 and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of that date. GASB Statement No. 68 requires the net pension liability to be measured as of a date no earlier than the end of the employer's prior fiscal year. TESRS did not roll forward the net pension liability nor did they provide the necessary information for the participants to roll forward themselves. While the City acknowledges that the measurement date does not fall within this 12 month period, the City elected to honor the conservatism principle and report a net pension liability measured as of August 31, 2017. The City used the assumption that any differences in the net pension liability measured as of August 31, 2017 versus September 30, 2016 would be immaterial. The employer's proportion of the net pension liability was based on the employer's contributions to the pension plan relative to the contributions of all employers to the plan for the period September 1, 2015 through August 31, 2017.

At August 31, 2017 the employer's proportion of the collective net pension liability was .475%. TESRS did not provide prior year proportions measured as of August 31, 2017. The City is using the assumption that the change in proportion would have been immaterial and therefore disregarded this year.

There were no changes of assumptions or other inputs that affected measurement of the total pension liability during the measurement period.

There were no changes of benefit terms that affected measurement of the total pension liability during the measurement period.

For the year ended August 31, 2017, the City recognized pension expense of \$12,772. The City recognized on-behalf revenues of \$7,662 calculated by taking the State's total contributions to TESRS multiplied by the City's proportionate share.

At August 31, 2017, the City reported its proportionate share of the TESRS deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	ed outflows of	Deferred Inflows of Resources		
Differences between projected and actual investment earnings	\$ -	\$	6,306	
Contributions paid to TESRS subsequent to the measurement date	\$ 21,753	\$	_	

\$21,753 reported as deferred outflows or resources related to pensions resulting from contributions subsequent to the measurement date will be recognized as a reduction of the net pension liability for the year ending September 30, 2016. The net amount of the employer's balances of deferred outflows and inflows or resources related to pensions will be recognized in pension expense as follows:

Year ended September 30	_	Pension Expense		
2017	\$	7,680		
2018	Φ	•		
		7,680		
2019		12,156		
2020	_	185		
Total	\$	27,701		

Note 14. Other post-employment benefits

Supplementary Death Benefit

The city also participates in the cost sharing multiple-employer defined benefit group-term life insurance plan operated by the Texas Municipal Retirement system (TMRS) known as the Supplemental Death Benefits Fund (SDBF). The city elected, by ordinance to provide group-term life insurance coverage to both current and retired employees. The city may terminate coverage under and discontinue participation in the SDBF by adopting an ordinance before November 1 of any year to be effective the following January 1.

The death benefit for active employees provides a lump-sum payment approximately equal to the employee's annual salary (calculated based on employee's actual earnings, for the 12-month period preceding the month of death); retired employees are insured for \$7,500; this coverage is an "other postemployment benefit," or OPEB.

The city contributes to the SDBF at a contractually required rate as determined by an annual actuarial valuation. The rate is equal to the cost of providing one-year term life insurance. The funding policy for the SDBF program is to assure that adequate resources are available to meet all death benefit payments for the upcoming year; the intent is not to pre-fund retiree term life insurance during employee's entire careers.

The city's contribution to the TMRS SDBF for the year ended September 30, 2016, were \$3,917, which equaled the required contributions for the year.

Note 15. Contingent Liabilities

Amounts received or receivable from grantor agencies are subject to audit and adjustment by grantor agencies. Any disallowed claims, including amounts already collected, may constitute a liability of the applicable funds. The amount, if any, of expenditures which may be disallowed by the grantor cannot be determined at this time although the City expects such amounts, if any, to be immaterial.

The City is a party to various claims and legal proceedings which normally occur in governmental operations. It is not possible to estimate the ultimate outcome or liability. These contingencies are not likely to have a material adverse impact on the City.

Also, during the year ended September 30, 2015, the City became aware that tax assessor collector fees from prior periods dating back to 2008 had not been paid. Therefore, an adjustment was made to the beginning fund balance and net position for the recording of this liability. Fund balance of the general fund and net position of the governmental activities as of September 30, 2014 has been reduced by \$44,381.

Subsequent to September 30, 2015, the City became aware that certain sales tax revenues from April 2008 to March 2009 and expenses from August 2006 to October 2014 related to the Hearne Economic Development Corporation and the Hearne Infrastructure/Improvement Corporation had not been property recorded. Therefore, and adjustment was made to the beginning fund balance and net position for these adjustments. Fund balance of the general fund and the Hotel/Motel Occupancy Tax special revenue fund has been increased by \$30,165 and \$70,000, respectively, and net position of the governmental activities has been increased by \$100,165 as of September 30, 2014. Net position of the proprietary fund and the business-type activities has been increased by \$103,788 as of September 30, 2014. Net position as of September 30, 2014 of the Hearne Economic Development Corporation and the Hearne Infrastructure/Improvement Corporation has been reduced by \$109,896 and \$94,056, respectively.

CERTIFIED PUBLIC ACCOUNTANT

INDEPENDENT AUDITORS' REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH GOVERNMENT AUDITING STANDARDS

To the Honorable Mayor and Members of the City Council City of Hearne, Texas

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, the aggregate discretely presented component units, each major fund, and the aggregate remaining fund information of City of Hearne, Texas, as of and for the year ended September 30, 2017, and the related notes to the financial statements, which collectively comprise City of Hearne, Texas' basic financial statements, and have issued our report thereon dated October 6, 2017.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered City of Hearne, Texas' internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of City of Hearne, Texas' internal control. Accordingly, we do not express an opinion on the effectiveness of City of Hearne, Texas' internal control. A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A *material weakness* is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and therefore, material weaknesses or significant deficiencies may exist that were not identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify certain deficiencies in internal control, described in the accompanying schedule of findings and questioned costs that we consider to be significant deficiencies. See finding # 2017-1.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the City of Hearne, Texas' financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards* and which are described in the accompanying schedule of findings and questioned costs as items 2017-1.

City of Hearne, Texas' Response to Findings

City of Hearne, Texas' response to the findings identified in our audit is described in the accompanying schedule of findings and questioned costs. City of Hearne, Texas' response was not subjected to the auditing procedures applied in the audit of the financial statements and, accordingly, we express no opinion on it

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

Donald L. Allman, CPA, PC

Georgetown, TX April 30, 2018

Any audit findings disclosed that are required to be reported in accordance with section 510(a) of OMB Circular A-133? yes X Identification of major programs: None Noted Dollar threshold used to distinguish between type A and type B programs: \$300,000

Auditee qualified as low-risk auditee?

X___ yes ____

CITY OF HEARNE SCHEDULE OF FINDINGS AND QUESTIONED COSTS FOR THE YEAR ENDED SEPTEMBER 30, 2017

Section 11-Financial Statement Findings

Form 941 payroll tax returns were not filed timely. Late filing of Form 941 payroll tax returns could result in the City of Hearne being charged penalties and interest for late filing. Payroll tax deposits were made timely. Form 941 payroll tax returns were not filed timely due to miscommunication of employee duties during the transition from a part time interim CFO to a full time CFO. The City of Hearne agrees that Form 941 payroll tax returns need to be filed timely and has corrected this finding.

Section III-Federal Award Findings and Questioned Costs

There were no findings and no matters were reported.
